

# RAINBOW

*instructions*

1

2

To complete this kit, I used setting C of the adjustable punch needle. You can play around with the settings to see what you like best.

(1) Thread your punch needle with the black yarn and fill out the lines by filling each line with 3 rows of stitches.

(2) Thread your punch needle with the pink green yarn and punch the right part of the design as shown. Then use the white yarn and fill out the rest of the space.

- turn the piece over and take a look at the piece as a whole. Snip ends and beginnings of your stitches. Are there any stitches that are much longer than the rest? If so, snip them just like you would when ending a stitch and mix them in with surrounding stitches so they're not as obvious.
- straighten out the outline by moving stitches around. Detailed video is [here](#).

**step back and enjoy the awesomeness you just created and be proud of yourself!**

I cannot wait to start getting pictures from all of you to see your beautiful work. Don't forget, I'm only a message away should you have questions ;)
