

# LEMON

*instructions*

To complete this kit, I used setting C of the adjustable punch needle. You can play around with the settings to see what you like best.

- (1) Thread your punch needle with the cream yarn and fill out the highlight on the lemon.
  - (2) Thread your punch needle with the mint green yarn and punch the leaf and the stem. You can make smaller stitches on the stem and because the yarn is thick it'll form a nice line.
  - (3) Moving on to yellow yarn. Thread your needle and punch the lemon.
  - (4) Thread the punch needle with the navy yarn and punch the background.
- turn the piece over and take a look at the piece as a whole. Snip ends and beginnings of your stitches. Are there any stitches that are much longer than the rest? If so, snip them just like you would when ending a stitch and mix them in with surrounding stitches so they're not as obvious.
  - straighten out the outline by moving stitches around. Detailed video is [here](#).
- step back and enjoy the awesomeness you just created and be proud of yourself!**

I cannot wait to start getting pictures from all of you to see your beautiful work. Don't forget, I'm only a message away should you have questions ;)
